

Electrolytes  
Reg. Key S.A.G.A.R.P.A. Q-0524-005\*  
FOR VETERINARY USE  
Oral restorative powder  
Oral electrolytic

**DRUG DESCRIPTION**

Every 20 g contain

Sodium bicarbonate	4.16 g
Potassium chloride	2.66 g
Sodium chloride	6.16 g
Anhydrous Dextrose	4.16 g
Magnesium sulphate•7H <sub>2</sub> O	0.56 g
Excipient c.b.p.	20g

Electrolytes is an oral powder restorative that contains the main electrolytes necessary to keep hydro electrolytic balance in the animal's organism.

It contains glucose in an amount that allows proper sodium and water consumption, glucose is also a source of calories.

Electrolytes is recommended for treating and preventing dehydration caused by severe diarrhea, vomit or prolonged physical activity, it's also an aid in bacterial, viral and parasitic infections in barnyard fowl, Dairy Cattle, Sheep, Goats, swine, Horses, dogs and cats.

It supplies sodium and dextrose in a balanced concentration besides chlorine, potassium and magnesium. It allows an easy intestinal liquid absorption and a sooner restoration of electrolytes which balance is paramount to in order to keep intracellular tonicity. It also helps maintain an acid-base balance, urine and blood osmolality, as well as keeping a proper distribution of water throughout the body. Electrolytes play an essential role in diverse physiological and metabolic processes. Their balance is paramount to keep nerve transmission, cardiac muscle contraction, renal function, carbohydrate metabolism, protein synthesis and maintenance of the sodium-potassium pump.

**DRUG USE**

Electrolytes is recommended for treating and preventing dehydration caused by severe diarrhea, vomit or prolonged physical activity, it's also an aid in bacterial, viral and parasitic infections in barnyard fowl, Dairy Cattle, Sheep, Goats, swine, Horses, Dogs and Cats.

## DOSAGE

SPECIES	PREVENTIVE	TREATING
Barnyard fowl and swine	100 g per every 200 Liters of water	100 g per every 100 Liters of water
Dairy Cattle, Sheep, Goats and Horses		100 g per every 200 Liters of water
Dogs and cats		5 g per every 10 liters of water

## ROUTE OF ADMINISTRATION

Oral, Dissolved in drinking water

## DRUG WARNINGS

Use in animals with renal insufficiency should be inspected by a veterinarian.

Keep this product in a cool and dry place protected from light at a temperature between 15° and 30°C

Keep out of reach of children and pets.

Consult a veterinarian

Prescription Only Medicine – Veterinarian (POM-V category)

## PRESENTATION

Box with 10 packets with 100g each
