

Diurelax®  
Reg. SAGARPA Q-0524-041\*  
FOR VETERINARY USE  
Magnesium Sulfate + Furosemide  
Diuretic, laxative gastric tonic oral powder

## DRUG DESCRIPTION

Every 100 g contain

Magnesium Sulfate • 7H <sub>2</sub> O	99 g
Furosemide	1 g
Excipient c.b.p.	100 g

➔ Diurelax® Is an osmotic laxative that stimulates normal digestion activities. One of its active components is Magnesium Sulfate which belongs to the osmotic cathartic laxatives or lump purgative salts. It has a diuretic effect and another active component which is furosemide, classified as saluretic and known for its clinical action on Henle Haft.

➔ Diurelax® Diuretic, laxative gastric tonic oral powder, recommended for the treatment of indigestion, ruminant atony, overloaded stomach and edema in Dairy Cattle, horses, sheep, goats and swine.

➔ Diurelax® is very useful to bring back the right rhythm and tone, stimulating rumination and improving the animal's appetite even with any digestive disorder. Due to its diuretic effect its use is recommended for those cases when fluid accumulates in the organism such as edema and acute intoxications.

➔ Reestablishes cell water absorption

## DRUG USE

Is a diuretic that fixes digestive disorders such as: indigestion, stomach overload, belly atony and it's also useful for reestablishing and stimulating digestive activity or getting rid of excess fluid due to its diuretic effect.
