Galliforte® is a Vitamin and mineral enriched restorative that increses agility, strength and endurance of fight birds.

Galliforte® is recommended for treating avitmaminosis, stress, metabolic disorders and as a nutritional supplement for fight birds.

Galliforte® increases aggression instinct and stimulates the correct function of the metabolism. During fight stimulates fixation and oxygen distribution in the bird's blood allowing to keep vigor during critical moments.

Galliforte® aids controlling hemorrhages and stimulates wound healing

Galliforte® Boosts organic resistance during tense situations such as training, molting and transportation.

Galliforte® Improves immune response, stimulates, birds' resistance against sicknesses .

Galliforte® improves growth, development and physical aspect of the birds (shine, color and plumage quality).
